We will maintain arrangements to systematically manage and control the risks inherent in our undertakings. Through such arrangements we will also seek to ensure continual improvement in our health and safety performance and will ensure compliance with current health and safety legislation.

We will set goals then monitor and continually seek to improve our achievement of Occupational Health and Safety objectives. These will be considered integral to our operations and will be implemented and reviewed using all available resources.

All staff, contracted or otherwise, within the company employment will be provided with the necessary information, instruction, training and supervision to allow them to carry out their duties in a safe and competent manner and we will communicate with them on Health and Safety Policy issues.

We will review industry standards and best practice in any sector in which we undertake operations, with a view to compliance and adoption and we will endeavour to safeguard the public and the wider environment which may be affected by our undertakings.
